Information about the service

Thryve Broadband service uses fixed wireless and/or optic fibre to deliver broadband to your premises.

Jitter and Latency (packets propagation delay) is slightly higher (Using Fixed wireless) than wired technologies. Please ask us whether this service characteristic might affect you. This service is available anywhere within our coverage which can be seen on our website <https://thryve.au>. Line of site to our base stations is also required. Where applicable, we will need to install equipment on the outside and inside (near a power point) of your premises. You will also need a gigabit modem/router (Not included).

You can change your plan at any time for no fee. If upgrading your plan before the end of your monthly billing cycle, you will need to pay the difference between your current plan and new plan. If you wish to downgrade your plan, please note we do not pro-rata refunds on plan downgrades.

Monthly fee plans might be increased 5% after the first 12 months of service and every year thereafter.

We can help you with any technical support, account or sales questions. Just give us a call on 0491188675, or lodge a fault via your Thryve account. —Live support is 7 days from 8AM to 9PM.

If you are not happy with your service, just let us know and we will do as much as possible to make you happy. . Ombudsman- If you are still not happy with the outcome of your complaint after following our dispute resolution process, you can contact the Telecommunications Industry Ombudsman (TIO) for independent mediation. The TIO can be contacted by calling 1800 062 058 or visiting the TIO website at tio.com.au/making-a-complaint.
